# Style, space & value

Choosing the perfect conservatory to extend your home can be a daunting task; we're here to guide you through the process to ensure that you end up with the best result. Our innovative products will give you the best long term return on your investment and enable you to use your conservatory all year round.

Our choice of traditional and contemporary designs and our range of colours, finishes and styles is simply second to none. Our local experts will be delighted to create a design sympathetic to your property, your living requirements and, of course, budget.

*With our flexible payment plans, buying a conservatory on finance has never been easier*

All of our products are made bespoke for you and our skilled advisors can help you to design your perfect Conservatory

*We are here to help you every step of the way*

## Victorian Conservatories

*Elegant and traditional style*

Victorian conservatories offer a traditional look; they tend to have three or five facets to the front elevation, and ornate detailing along the ridge of the apex roof.

Elegant and traditional, our Victorian inspired conservatories add a classical touch with a timeless style that will wow your friends, family and neighbours. With a unique curved front, this design is the gift your home deserves.

A Conservatory is one of the most cost-effective and flexible ways to extend your home, a well designed conservatory can quite simply transform the way you live.

## Edwardian & Georgian Conservatories

*Incorporate this stylish era into your home*

This is by far the most popular style, the square shape will give you maximum internal space and versatility when positioning doors etc. The vaulted roof gives you a real sense of space. A popular option is to build the walls higher on one side, with a row of windows on top to provide wall space to hang a TV and to give privacy from neighbours.

Edwardian and Georgian conservatories add a unique heritage look to your home and feature the most modern technology so you and your family are safe, warm and have a wonderful living space all year around.

## Gable Conservatories

*Add luxury, space and value to your home*

This style features a flat Gable frame to the front elevation, which gives you the opportunity to make a real statement with an attractive bespoke design. This design is perfect if you opt for blinds as all of the roof glass units are rectangular in shape; fitting blinds to Edwardian and Victorian Conservatories can be complicated and expensive.

For extra peace of mind all our installations have insurance backed guarantees

Our high quality lean-to conservatories are the most competitively priced options and an ideal option where there are height restrictions around your home

## Lean-To Conservatories

*Stylish and cost effective*

The Lean-to is still incredibly popular, it's simplicity makes this the lowest cost option. This style is available with a 2.5 degree pitch which makes it ideal if you have height restrictions. It is also widely used where there are adjoining walls.

# Something Special

We have the expertise and product range to design you a truly bespoke conservatory. Lantern roofs, Orangeries, tiled roof conservatories and bi-fold doors are all the rage at the moment and will give you a real wow factor. Dare to be different!

*Because you deserve the best*

## Life in fabulous colour

Add warmth and style to your home with our range of coloured conservatories. Coloured frames and roofs offer an authentic alternative to timber, but without the associated problems of high maintenance and of course cost. All of our woodgrain finishes are also available in white on the inside.

Golden Oak

Cherrywood

### Woodgrain Collection

Rustic Cherry

Woodgrain White

Cream

Chartwell Green

Grey

Green

Black/Brown

The colours shown are designed as a guide. Before making your final decision, please ensure you have seen a colour swatch.

*We offer expert tailoring so that we can create the perfect conservatory just for you*

# Lantern Roofs & Skylights

With a lantern roof you can flood your living space with light and empower yourself to have a more controllable, usable space all year round, whatever the weather. We normally supply lantern roofs for customers that have existing flat roof areas or where they are having extensions built.

Add height, light and volume to any living space

With this elegant home extension you can add value to your home and better still, have a room full of natural light even when the skies are grey.

The perfect choice for a wide range of refurbishment, extension or new-build projects.

*Create space and add natural light*

A skylight brings more natural light and height to a room - an ideal way to breathe new life into existing flat roofs.

*An ideal way to transform tired, old conservatory roofs*

Building Control approval may be required

## Tiled Roofs Conservatories

The beauty of a tiled roof conservatory is that it works just as if it was part of your home.

You won't experience those extreme seasonal changes in temperature, glare from the sun or noise from the rain. Just comfort, space and light - all year round. It's also the ideal way to transform tired, old conservatory roofs.

Tiled roofs are the latest conservatory innovation where the solid roof is fully insulated to help regulate the temperature. Tiled roof dimensions are completely bespoke to match all size and design aspects of your conservatory, while also tying in with your home's current roofline.

Our composite, and lightweight metal tile options are designed to be the closest possible match to your existing roof materials with sympathetic tones to blend into existing natural slate, clay and concrete tiles.

We complete works under the scope of Building Regulations on your behalf.

This style is also available with Bi-folding doors and vertical sliding windows

# Orangeries

*Elegance and style all year round*

Our patented designs enable us to provide you with your dream Orangery at a fraction of the cost of a 'traditional build'.

One thing is for sure, whatever style you go for, you will be creating a stunning and practical living area. The features, styles and colours available mean that you really can make a truly stunning addition to your home.

Let us show you why a stylish orangery is something you deserve.

Decorative guttering can be included to give a stunning structure
